EDUCATION

Supreme Knowledge Foundation Group of Institutions

Bachelor of Technology (B.Tech)

Computer Science and Engineering

8.5 average cgpa

Mankundu, Hooghly

Sep, 2020 - June, 2024

BNC Vidyalaya

12th Boards

Phy - Chem - Maths - Computer Applications

88.01%

Bally, Howrah

2018 - 2020

WORK EXPERIENCE

Software Development Intern

Aug, 2022 - Jan, 2023

Geogo Techsolutions Pvt. Ltd.

1. Worked on a PMS application, built scalable and interactive dashboard using reactjs, Mui components library, tailwind css. Implemented graphs and charts with real-time data using D3.js. Worked with RestApi, Express and Node and used Gitlab for version control.

ACTIVITIES AND EXTRACURRICULAR

Hack4Bengal 2.0 - hackathon

Participated and made an end-to-end product from scratch within 30 hours.

Winter of Code 3.0 - hackathon

Participated and contributed to this open source hackathon with 1000+ participants.

SKILLS

Technical Skills: C/C++, JavaScript, ReactJs, UI libraries, React-Router, RestFul Api, Tailwind CSS, MongoDB, Adobe Illustrator, Version Control with git, Computer science fundamentals - Operating Systems, Database Management Systems, Data Structures and Algorithms.

PROJECTS

Portfolio site with the newest Next.js 14

I designed and coded a portfolio site from scratch using NextJs 14, custom hook component, framer motion for swift and cool animations.

Decentralised task app with Next.js

A tick-your-tasks app hosted on the blockchain using Truffle, solidity and NextJs server actions.

LawGPT

A chatgpt-like LLM model where you can ask any questions about the Indian law and it will give a personalised result based on your query. *This is currently in the design phase*, I'm making this with the help of my professors.
